Dear Andrew

Please see attached :-

- my response to this outline planning application
- my report to Dordon Parish Council about feedback on the door from local residents
- transport assessment[Lennon Transport Planning Sept 2021] for planning application for a residential property on the A5 - just opposite proposed site

I would be grateful if you could draw the attention of Highways England to the evidence in this transport assessment about speed of traffic between Birch Coppice site and Junction 10 and concerns about traffic flow along west and east side of A5

Many thanks and best wishes

Cllor Jacky Chambers
